EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: nonelected claims (without traverse) 29-44 have been withdrawn.

REASONS FOR ALLOWANCE

2. Claims 1-28 and 45 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a liquid crystal display device comprising a combination of various elements as claimed, more specifically, the receiving means part comprises at least one wall and at least one boss formed at a bottom surface of the receiving part, the at least one boss guiding a position of the light generating part and preventing the light generating part from being moved, the at least one boss being spaced apart from the at least one wall.

Sakamoto ('245) discloses a liquid crystal display device comprising a receiving means comprising at least one boss formed at a bottoms surface of the receiving part. However, Sakamoto fails to disclose 'the receiving means part comprises *at least one wall* and at least one boss formed at a bottom surface of the receiving part, *the at least one boss guiding a position of the light generating part and preventing the light generating part from being moved, the at least one boss being spaced apart from the at least one wall*'.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
